EXPERIENCE

Major League Hacking,

Hackathon Community Lead — Jul 2019 - Present
Hackathon Community Manager — Jun 2018 - Jul 2019

- Project managed our annual conference, Hackcon VIII, for 1,000 attendees. Additionally managed onboarded, and reviewed 50 speakers and spearheaded overall digital attendee experience.

- Implemented a new pipeline processing method that allowed our team of 3 to process through hundreds of applications 2-3 months earlier than compared to previous semesters.

- Strengthened existing relationships with 20 of the largest, legacy hackathons by creating and implementing customized support for each event's specific wants.

- Created the Community Experts program which allows students to share knowledge and best practices between the community of hackathon organizers.

- Created new processes and resources to help all organizers and MLH staff better coordinate day-of logistics, such as judging projects digitally and handling cheating projects.

Chartbeat, *Backend SWE Intern* — May 2017 - Aug 2017

- Created MySQL model and CRUD Django APIs to manage subscriptions for **100s** of clients.

- Designed development pipeline for PostgresDB worker to delete old table entries.

- Wrote unit tests with Python's Mock library for various internal APIs.

HackRU,

Co-Executive Director — Jun 2017 - Jun 2018
Director of Finance — Jun 2017 - Jun 2018

- Defined high-level objectives and responsibilities for all team leads to accomplish for Rutgers University's 24-hour biannual hackathon with 600+ students.

- Raised $41K to repay club debt, pay for hackathon, and have $10K cash in reserves.

- Established precedence to justify all event expenditures and reserve sponsorship money in savings, $50K over 2 years.

EDUCATION

Rutgers University- New Brunswick — Sep 2014 - May 2018

- B.S. Computer Science; GPA: 3.27

- C. Greg Hagerty, PhD Endowed Memorial Scholarship in Computer Science
